Clear Front Locker

▶ **Management of large and bulky items**

▶ **Standalone option**

▶ **Enhanced visibility with clear front lockers**

▶ **Multiple products/SKUs per locker**

▶ **Optional powered cupboards for recharging**

The Clear Front Locker provides an economic inventory access solution for low cost, ideal for bulky or heavy items or as a buffer stock location working in conjunction with other SupplyPoint products. Each locker consists of three vertical stacks, each of which can be configured with 3, 6, or 9 electronically controlled clear front cupboards.

Product Details

CONSTRUCTION	1018 cold rolled steel, and the windows are acrylic
WEIGHT	360 lbs per frame (386 lbs boxed) 50lbs per compartment
COLORS	Blue and black
POWER	120 - 230V AC, 3A

All products offer:

• SupplyPoint software
• 24/7 availabilty
• Reduced product consumption
• Improved productivity
• Lower inventory costs
• Optimized inventory
• Convenience and simplicity

Standalone or Add-On

Can be used as a standalone solution or included as part of a larger SupplyPoint™ installation.

Locker Options

3 different size locker doors are available, allowing the control of a range of large or bulky items. All items are easily located by a 'pick to light process' for quick and intuitive access.

Accountability

The advanced software provides a comprehensive audit trail on item usage.

Combined with our powerful SupplyPoint inventory management software the Clear Front Locker compliments our extensive product range to efficiently control an even greater range of your essential inventory

EXPANDABLE AND VERSATILE
Can be specified with a mixture of different size lockers to provide between 9 and 27 secure locations in a single frame. Up to 10 frames can be connected providing up to 270 secure locations in a single system.

MANUAL OVERRIDE
In an ideal world a manual over-ride would never be needed. But if required, it ensures 24/7 availability to all the contents with a quick and easy manual override capability allowing access to items stored within.

LOCKER OPTIONS
The Clear Front Locker has three standard door sizes which can be mixed within one frame to optimize capacity.

EFFICIENCY
Multiple locations can be selected in one transaction minimizing the time required to withdraw several items.

COMPATIBILITY
The locker is fully compatible with all existing SupplyPoint™ machines.

SECURITY
Access to the contents in the locker is restricted by the use of: username, password, biometric identification, card readers or a combination of these options. The door locks are of a high strength and cannot be forced open in normal or aggressive use without the assistance of tools. The items held within the locker are hidden from view and can be randomly distributed around the machine, reducing the risk of the unauthorized removal of contents.

TRACEABILITY
The powerful SupplyPoint software provides a complete audit trail allowing management to know who, what, where and why about the usage of system managed items.

INDIVIDUAL LOCKER LIGHT
Each individual locker has it's own lighting capability, allowing full visibility of products within the locker.
