

# Mini Modulo

Mini Modulo incorporates SupplyPoint's industry leading software, VendTel, in a small footprint unit, with high capacity (up to 432 items) at a competitive cost.

## Product Overview

### What is Mini Modulo?

Mini Modulo is a compartment based cabinet drawer system that incorporates SupplyPoint's industry leading and award winning progressive drawer technology to provide a high capacity machine at a competitive cost.

### How does it work?

The Mini Modulo is available currently as a stand-alone (with touchscreen and controller) only. However, it can be configured to provide different size drawers and compartments. Up to nine additional SupplyPoint frames can be connected to provide additional capacity.

Multiple items can be selected in one transaction minimising the time required to manage large volumes of stock.

### What can you store and manage within a Mini Modulo?

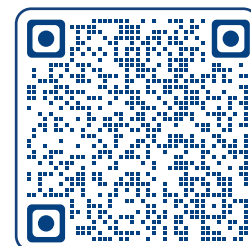

Mini Modulo currently supports 5 different drawer sizes and can be used to store a variety of items including cutting tools, drills, batteries, general MRO and PPE.

### Is it a suitable inventory management solution for your industry?

Combined with VendTel, SupplyPoint's Inventory Management Software the Mini Modulo provides a versatile, countertop unit with high capacity to meet inventory management needs across multiple industries.
