

RotoFlex

With all-new electronics and the promise of unparalleled flexibility in a carousel unit, RotoFlex offers the widest array of storage spaces in the smallest footprint. With horizontal and vertical configurability, RotoFlex can meet a variety of needs simply.

Product Overview

Ideal for quick access to PPE, MRO, small hand tools, spares, and much more, each RotoFlex's steel drum has a maximum capacity of 200kgs/441lbs and can be divided into as many as 507 compartments. All in a unit that will fit through a standard doorway.

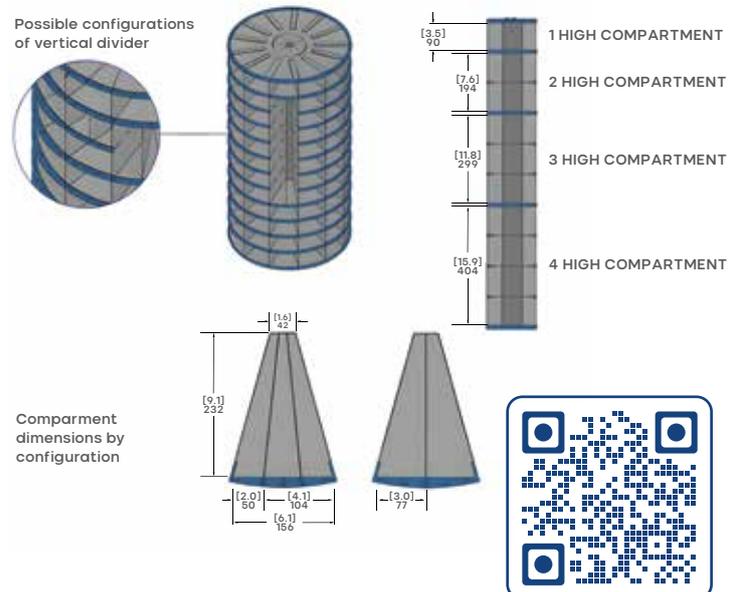

The RotoFlex drum consists of 13 fixed columns that can be divided into 4 different vertical sizes and 4 different horizontal sizes by adding or removing (without the need for tools) horizontal shelves or vertical dividers. Each level and column can contain different compartment sizes. The door hatches can be opened individually or in tandem with adjacent hatches to access compartments of variable height.

With its robust steel construction, RotoFlex offers the secure, compartment-level storage SupplyPoint is known for, while its flexibility allows precise configuration to suit your needs. It is the next evolutionary step of the carousel unit.

Using the VendTel User Interface, the RotoFlex Vending Machine can stand alone, join with other RotoFlex units, or join in installations mixed in with other SupplyPoint Vending Machines to serve your inventory control needs.

SPECIFICATIONS	
MAXIMUM COMPARTMENTS	507 per frame
UNIT HEIGHT	72.91 in/1852mm
UNIT DEPTH	27.87 in/708mm
UNIT WIDTH	28.66 in/728mm

All SupplyPoint Solutions include:

Endpoint Management

Let SupplyPoint assist you remotely, with remote technical support, security updates, and operating system patches.

WebSync

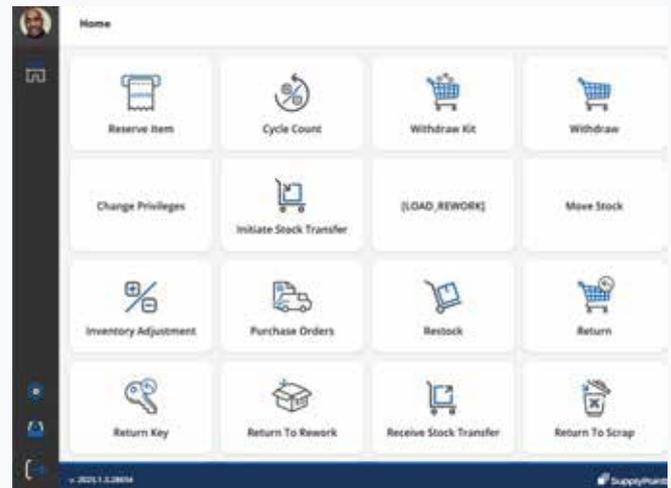

Your "Vending Machine in the Cloud" provides 24/7/365 access to your data from anywhere with an Internet connection.
